- Find some information about David Hockney's style of art. You do not need to know information about his life, just the important facts about his art work!
- There are two examples of Hockney's iPhone paintings here. How has Hockney used this medium to his advantage? Start by talking about the differences in using an iPad or iPhone to create paintings, compared to using paint. Remember to use words such as composition, colour, tone, line, texture, and to talk about the style he has used. Use your booklet to help with this answer.
- Hockney has used a very specific style here, which is quite different to his more traditional paintings. Be sure to mention this when you write about his work. Why do you think Hockney might have started to use the iPad or iPhone as a tool for producing his art?
- Finally, remember that the purpose of Expressive Art is to make us have some sort of reaction, or to express feelings about the subject being painted. What is your personal reaction to this painting? Give reasons for your thoughts.
